LAMPERD

LESS LETHAL

Lamperd Less Lethal specializes in the design and manufacture of civil and military defense technologies since 1969.

Heavily involved in research and development projects.

Products released to the market are backed by very sound scientific background.

NATO Commercial and Government Entities (NCAGE) License.

Supply military equipment to any NATO member countries

Federal Business Firearms License.

Manufacture, repair, storage, import, export and sale of virtually any military and security products.

PRODUCTS

1. Less lethal weapons and munitions.
2. Less lethal devices.
3. Interlocking riot shields with weapon ports.

TRAINING

1. Training programs.
2. Advanced less lethal munitions for training.
3. Training suites.
4. Training equipment.

LESS LETHAL SOLUTIONS

FOR PUBLIC ORDER & CROWD CONTROL

ASTOUNDING 90
SECONDS
STRAIGHT - WITHOUT
A REFILL! or up to 200
short bursts
up to 40 feet

The Crowd Control Tank

System (CCT) is the next step in Evolution of public order.

The CCT is safe, allows more officer mobility and firing flexibility while covering the same distance as other units.

The CCT system employs:

■ **Two strong, lightweight aluminum (tanks carried).**

Allows the officer free use of both hands and arms while serving as protection for the tanks to keep them from access by an attacker.

■ **“Handheld” powerful nozzle:**

Officer can fire in virtually any direction without having to turn and point the tank at the crowd to allow a wider angle of effective deployment.

CROWD CONTROL TANK

TECHNICAL SPECIFICATIONS

Diameter	Water Capacity	Weight	Service Pressure
10.16 cm	174 cu in	.997903 kg	575 psi

SPRAY GUN

Pressure	Spray Pattern	Distance
450 psi	14" diameter	max 40'

Note: Pressures are vital for optimum performance of OC Spray.

Ammunition

WASP™

Less Lethal Projectile

- The WASP is a novel, lead free, highly researched (3 years) rubber projectile that has won numerous national and international awards.
- It is composed of a specialized composite that allows it to be stable over a wide range of temperatures from -50°C to 70°C while maintaining high accuracy and effectiveness.

The Wasp dissipates energy, thus inflicting an adequate but not lethal trauma to the target.

Ammunition

Utilizes the patented novel composite in smaller calibers for 9mm guns and automatic M4 firing.

Despite of the size, the bullet is still very effective In inflicting high trauma without penetrating or causing major injuries

Wide range of less lethal ammunitions to fit the needs of most police and military weapon systems.

Ammunition are available in a number of sizes including 9 and 5.56 mm 20 and 12 gauge 50 cal. 37 and 40 mm.

37/40 mm Ultra-Light Composite Launcher

- Single shot launcher designed to be fired single-handedly or two handed.
- Astounding lightweight at 1.2 Kg (2.7 lbs) and fires up to 30 meters (100 feet).
- Shoulder Stock allows the shooter a subjective sight picture while wearing a gasmask and riot helmet or a ballistic helmet.

Lightweight,
Accurate &
Hassle Free

TECHNICAL SPECIFICATIONS

Model Number	Overall Dimensions	Caliber	Safety	Ammo	Trigger	Sling
L37-SL	29" With Fixed or Open Folding stock, 18" closed folding stock	37/38mm Smooth (1.5")	Safety Lock	All Rimmed 37mm Ammo up to 8" in Length	Double Action	Double sided sling loops to allow carrying with a single point sling system.
L40-SL		40mm Rifled		All Rimmed 40mm Ammo up to 5.9" in Length		

Device can control the effected crowd for up to 20 minutes, cover 200 square feet and fire up to 100 feet. This product is available for both 37mm and 40mm launchers.

Aerial Burst Pepper Spray Device

- The World's only Aerial Burst Pepper Spray Device.
- Effective and Safe.
- Optimum solution to effectively disburse large crowds using powerful yet harmless pepper spray with minimal risk of Injury.

The Projectile dissipates into dust and 8 grams of harmless material to insure no harmful fallout on the target area upon landing.

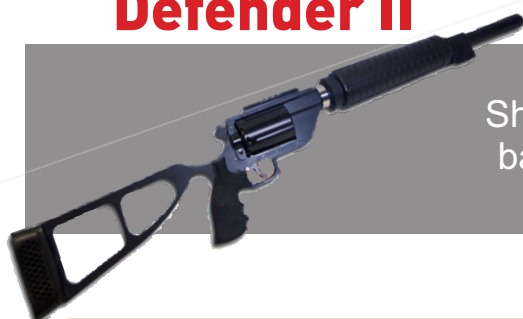

Defender I

The Defender I is an Effective five shot compact, lightweight handheld 20 Gauge revolver.

TECHNICAL SPECIFICATIONS

Overall Dimensions	Weight	Caliber	Classification	Material	Ammo Capacity	Trigger Pull	Sights	Sight Options
9 inches	1.5 lbs 680 gm	20	Police, Military and Security	Air Craft Aluminum	5 Round Cylinder	Double Action: 3.5 lbs Single Action: .5 lbs	Fixed Blade	Crimson Trace Laser Grip System

Defender II

Shoulder fired 20 gauge 5 shot revolver. It has a 18 Inch barrel that is extremely accurate for long distance shots.

TECHNICAL SPECIFICATIONS

Caliber	Classification	Material	Ammo Capacity	Trigger Pull	Sights	Sight Options
20	Police, Military and Security	Air Craft Aluminum	5 Round Cylinder	Double Action: 3.5 lbs Single Action: .5 lbs	Fixed Blade	Crimson Trace Laser Grip System

- Defender I and II offers superb solutions to deal with all conflicts in, Crowd control, Airports, Border Crossings, Banks, Security officers at government agencies, Day to day police encounters.
- Requires minimal training.
- Defender I and II deploys distraction rounds, pepper rounds, scientific less lethal rounds, lethal rounds, training rounds and blast rounds.

LAMPERD
LESS LETHAL

The new inter-locking shields are ideal for crowd control scenarios.

The shield is made in all sizes requested (typical lengths are 2 to 6 feet).

Officers are able to connect and lock their shields together for increased control and resistance within 2 seconds.

A Defender I handgun fitting can be mounted on the shield if required for scenarios requiring higher levels of force.

Interlocking Shields

Training

- Hold training courses by professional training instructors from the police and military.
- Manufacture training suits and equipment to accompany the training.
- These programs offer the trainees real life scenarios in a real life setting!!

Training Suits

Lamperd's training suites are shipped all over the world and employ outstanding breathable fibers and are well constructed for all training needs.

The simulation suit will protect trainees against less lethal projectiles, baton strikes, ammunition and even full power taser charges.

All these lightweight suites come complete with full face, head, neck, upper body, lower body and hand coverage along with a heavy duty carry bag.

Training equipment include:

- Training batons
- Custom-made kick bags
- Fire resistance
- Public order protective gloves.

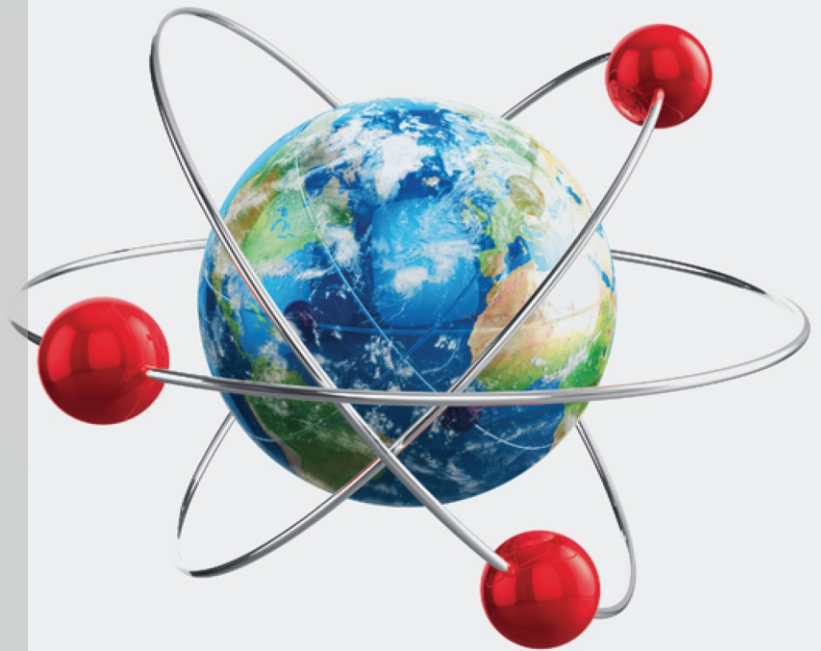

- Half the weight of similar material
- Excellent resistant to fading, abrasion, quick drying, highly water repellent
- Thickness: 0.5 mm
- Fabric Weight: 10.8 oz/sq yd

Global Presence

Lamperd products are used all over the world including:

Canada, USA, England, South Korea, Malaysia, Austria, Switzerland, South Africa, and more.
